Reminder that CAD data requires a CAD license agreement with us

# RAM CHASSIS CAB: PTO SYSTEMS UPDATE

## ❑ PTO Enhancements for 2025-26:

- All chassis cabs are now 'PTO capable' except 3500 w/ gas engine & optional 8HP75 trans [DFX]
- Engine Driven PTO "Live Drive"
- Dual-handed capability (left/right/both)
- Revised Floor Access "patch" panel w/ foot pad

## ❑ Split Shaft PTO (SSPTO) capable – diesel only

## ❑ Clutch pump available on engine

- Aftermarket solutions available

Patch Panel w/ Foot Pad

Patch Panel removed

New SAE 8-Bolt Pattern

PTOs are now available  
from major manufacturers

Right & Left Side

Left Side available  
Right Side soon

# RAM HD/CHASSIS CAB: ADAS SAFETY SYSTEMS

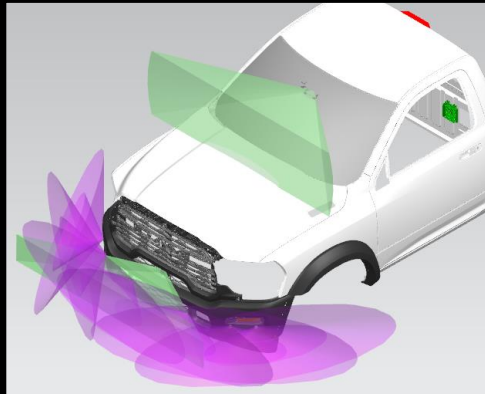

## ADAS (ADVANCED DRIVER ASSIST SYSTEMS)

❑ Provides significant improvements in driver's safety

❑ Requires unobstructed view around vehicle

- Front: Camera, Radar, park sense
- Rear: Radar, park sense, camera(s)

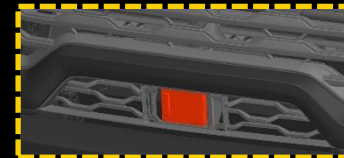

❑ CAD available on Upfitter Portal

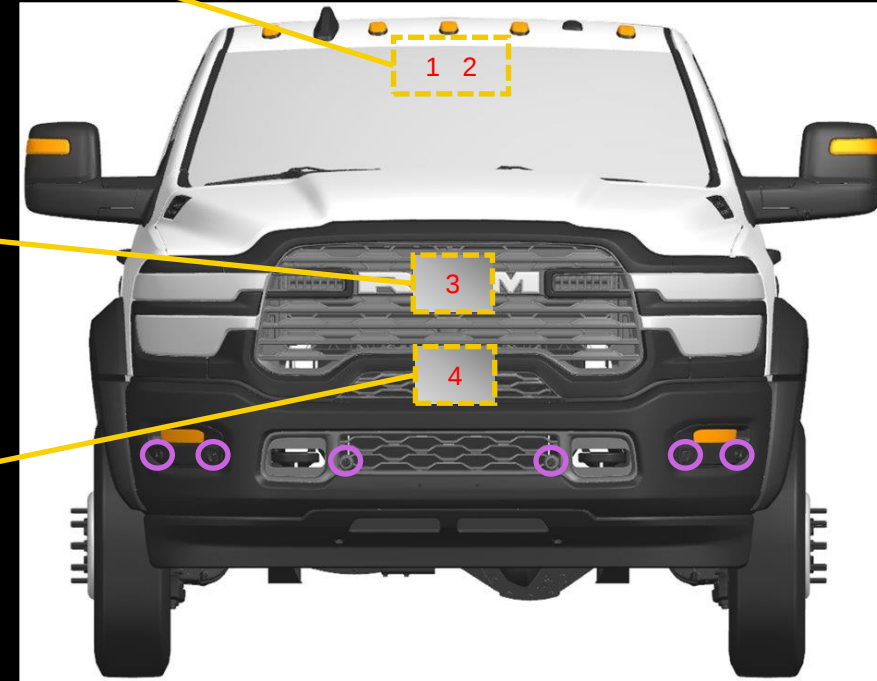

1 - Rain Sense Module  
2 - Long Range Camera

3 - Front Camera

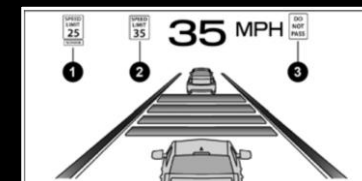

4 - Long Range Radar

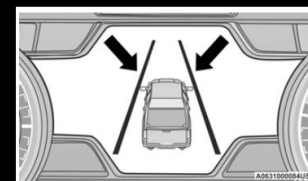

Front ParkSense Sensors (6)

AEB w/Pedestrian Detection

Traffic Sign Recognition

Active Lane Management

# RAM HD/CHASSIS CAB: UPFITTER FEATURES

## COMMERCIAL FEATURES FOR 2026:

### ❑ Relocation of Digital Rearview Mirror

- Order sales code XH7 – Tow-Mode / Upfit Camera Kit
- Allows for mounting of camera onto upfit
- Camera & accessories included in kit

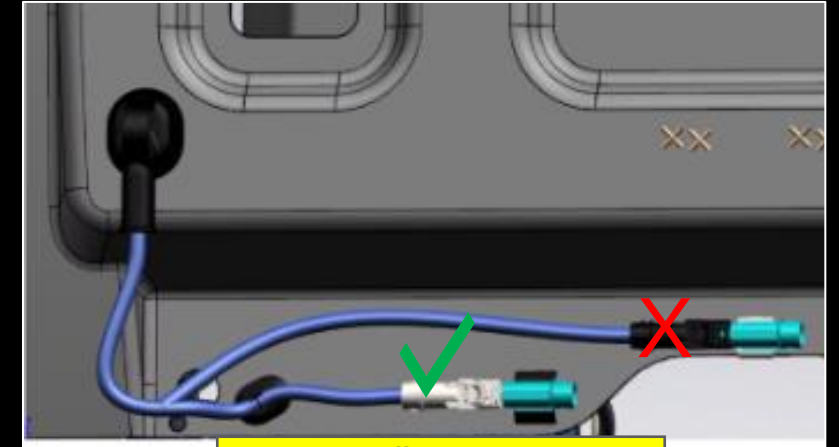

### ❑ 2.4kW On-board Power

- HD: Mounted in bed of truck or RamBox
- CC: Loose ship w/ extension cable
- Button below steering wheel

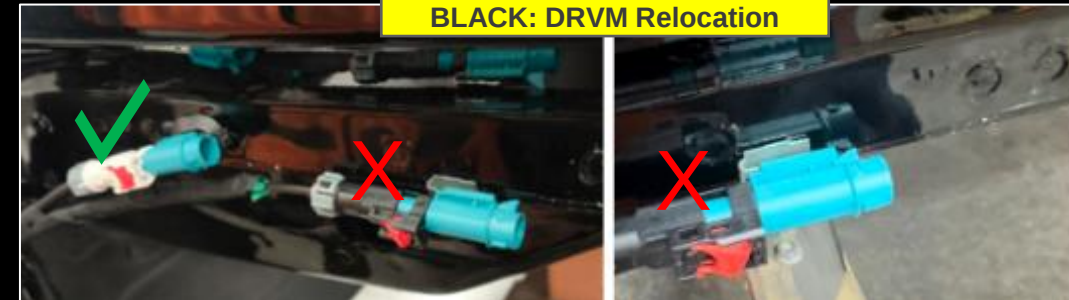

### ❑ Vehicles & loose ship parts in booth

Power Panel –  
Loose Ship on Chassis Cab

WHITE: Trailer DRVM Camera  
BLACK: DRVM Relocation

# RAM HD/CHASSIS CAB: SNOWPLOW PREP

❑ STANDARD ON PICKUPS (DJ/D2) AND 3500 CHASSIS CABS (DD)

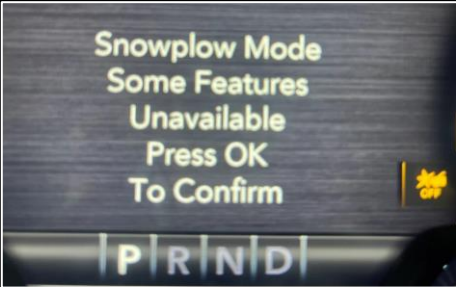

❑ OPTIONAL ON 4500/5500 CHASSIS CABS (DP)

- Sales code [AHD]
- Upgrades Front Suspension and Rear Stabilizer Bar

❑ Wiring (6 blunt cut) under the Power Distribution Center

- Standard on all HD/CC trucks, wrapped with yellow tape
- Low Beam, High Beam and Park Lamp are now High Output in the new Architecture
- Front lighting & ADAS features disabled when the snowplow attached

❑ Snowplow details & CAD available on portal

| Function                  | Number | Wire Ga | Color | Driver Type        |
|---------------------------|--------|---------|-------|--------------------|
| Park Lamp                 | L192   | 0.75mm  | WH/YE | Active High Output |
| Snow Plow Lighting Enable | L312   | 0.75mm  | BK/VT | Active High Input  |
| Low Beam                  | L308   | 0.75mm  | BG/GY | Active High Output |
| High Beam                 | L319   | 0.75mm  | BG/VT | Active High Output |
| Left Turn                 | L317   | 0.75mm  | WH/VT | Active High Output |
| Right Turn                | L318   | 0.75mm  | VT/BN | Active High Output |

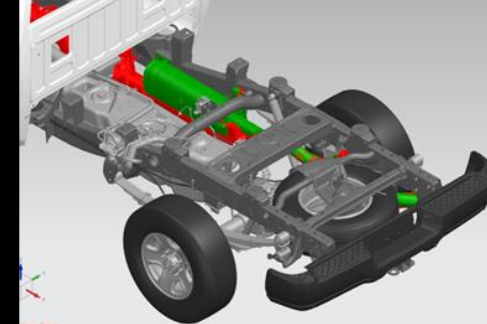

Revised strategy for 2025

# RAM HD: FACTORY BOX OFF & FIELD BOX REMOVAL

## ❑ Factory Box Delete [XBC] available on specific models:

- Gas only (Tradesman and Big Horn models)
- IVD vehicle, requires final stage manufacturer
- Rear lighting already combined (i.e. '5D7')

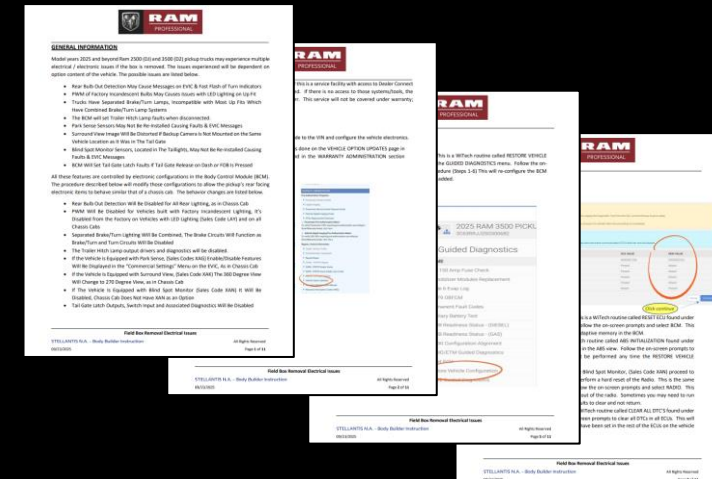

CAD available on Web Portal

## ❑ Field Box (upfitter/owner) Removal:

- Can be performed on all models
- Removal / conversion of features can result in errors / malfunction
  - (cross path, park sense, LED conversion, etc.)
- Reference document on portal

## ❑ Solution:

- Instruct dealer to add sales code '5D7' to vehicle configuration
- Eliminates need for aftermarket solutions (incl. combined lighting adaptors)

# 2025/26 RAM CHASSIS CAB: PTO RE-ENGAGING WITH HWRSS\*

❑ Some instances of HWRSS not re-engaging PTO

❑ Vehicles Affected:

- 2025MY - Gas & Diesel
- 2026MY - Gas & Diesel

❑ Solution: New software update

- Technical Servic Bulletin (TSB) to be issued

❑ Timing:

- 2025/26MY Gas – Mid.-Nov. 2025
  - Performed by dealer or with wiTECH Micropod
- 2025/26MY Diesel – Mid-Nov. 2025
  - Performed by dealer/wiTech; possibly via FOTA

\*HWRSS = Hard-wired Remote Start/Stop

- ## ❑ Vehicles Affected:

- ❑ **Solution: New software update**

- **Technical Service Bulletin (TSB) to be issued**
- **Performed by dealer or with wiTECH Micropod**

- ## ❏ Timing:

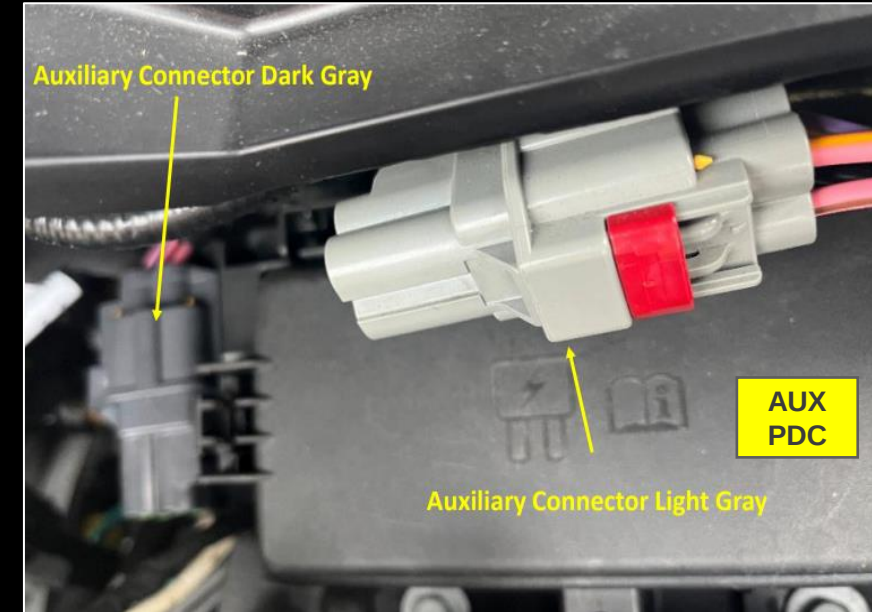

- **2025MY - Gas – 1/29/26**
- **2026MY - Gas – 1/5/26**
- **2025MY - Diesel – 10/2/25**
- Software Release on TSB #18-074-25 Rev A (DP); TSB #18-075-25 Rev A (DD)**

[illegible][illegible]

# 2025/26 RAM CHASSIS CAB: AUXILIARY SWITCHES

- ❑ **Aux switch Last Known State may not be retained**
- ❑ **Vehicles Affected: 2025/26 3500-5500 Chassis Cab Gas & Diesel**
- ❑ **Solution:**
  - Technical Service Bulletin (TSB) to be issued
  - Requires a software update to the Body Control Module (BCM)
  - Performed by dealer or with wiTECH Micropod
- ❑ **Timing:**
  - 2025MY - Target date of 12/5/25
  - 2026MY - Target date of 12/17/25

# 2025/26 RAM CHASSIS CAB: HWRSS\* IGNITION TIME OUT

❑ Ignition switch will time out after 20 minutes and prohibit HWRSS from starting the engine

❑ **Vehicles Affected:**

- 2025MY - Gas & Diesel
- 2026MY - Gas & Diesel

❑ **Solution: New software update**

- Reconfigure the Radio Frequency (RF) Hub
- Automatically updates when wiTECH Micropod is installed

❑ **Timing:**

- 2025/26MY Gas & Diesel – 10/24/25
  - Performed by dealer or with wiTECH Micropod

\*HWRSS = Hard-wired Remote Start/Stop

# RAM CHASSIS CAB: 6.4L GAS FUEL LINES WITH LEFT-SIDE PTO

## ❑ 6.4L Gas fuel lines may encroach upon left-side PTO packaging

### ❑ Vehicles affected:

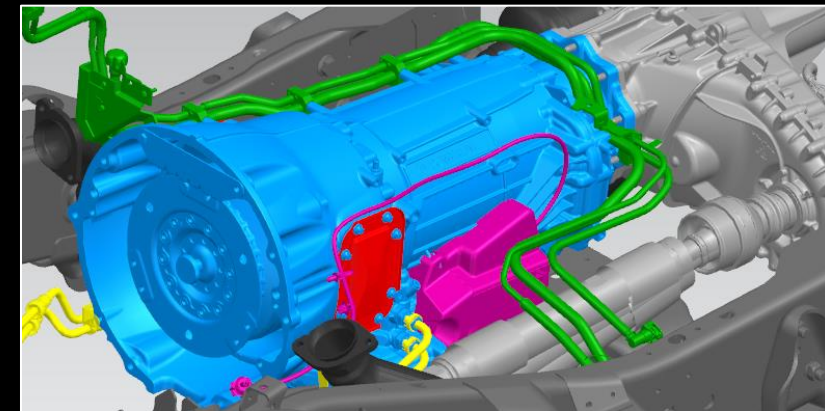

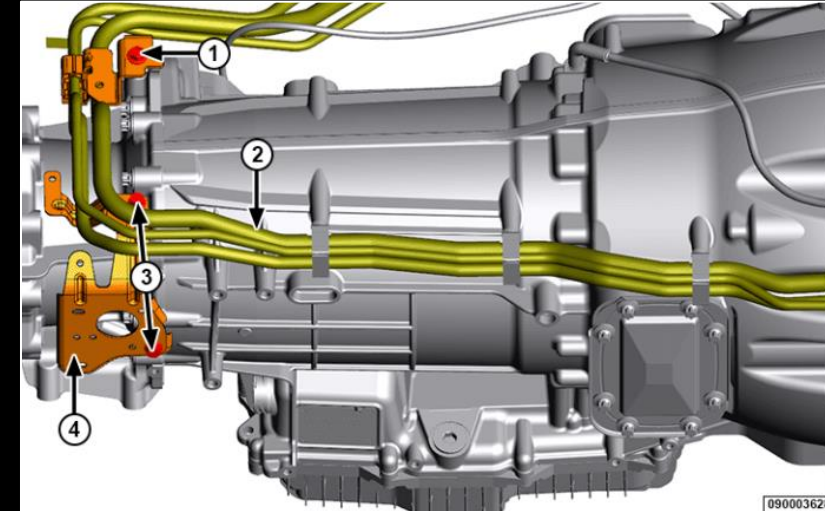

- Select 2025MY 3500 Gas Chassis Cab with DFZ transmission
- 2025MY 4500-5500 Gas Chassis Cab

### ❑ Solution:

- Technical Service Bulletin (TSB) to be issued
- Kit: fuel lines, transmission oil & o-ring
- Dealer repair: replace fuel lines to allow left side PTO installation
- Upfitter repair: parts to be made available (1x VIN) under warranty
  - Labor not included/reimbursed

### ❑ Timing:

- Targeted implementation of Nov. 2025

## 2025 RAM CHASSIS CAB: DIGITAL REARVIEW MIRROR RELOCATION KIT

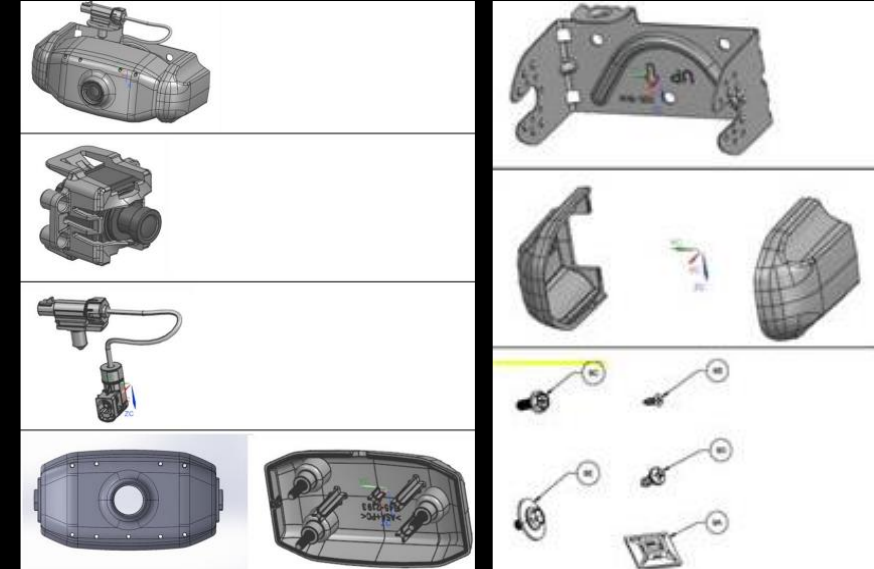

- ❑ Vehicles built with DRVM Relocation Kit, XA3, are missing the camera**

- ## ❑ Vehicles affected:

- **2025MY 3500-5500 Chassis Cab with sales code XA3**

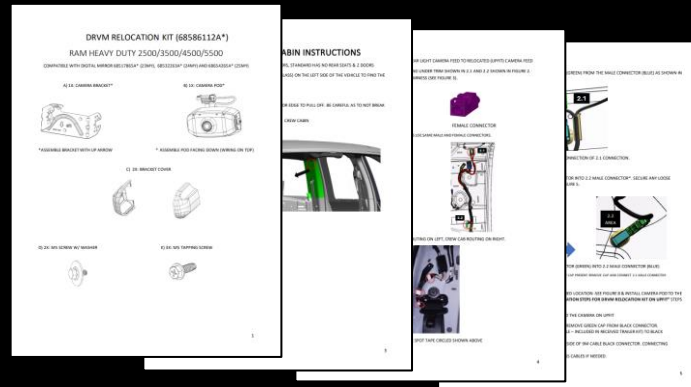

- ## ❑ Solution:

- **Customer Satisfaction Notice (CSN) to be issued – Mailer will be sent**
- **Utilize contents from the XH7 – Tow-Mode / Upfit Camera Kit**
- **VIN specific to affected vehicles**
- **Instructions for will be posted on the Ram Body Builder's Portal**

- ## ❑ Timing:

- **Targeted implementation of Nov. 2025**

# 2025/26 RAM LD/HD/CHASSIS CAB: TRAILER TOW WIRING

❑ **Some trailers w/ higher amp draw may not function correctly**

❑ **Vehicles affected:**

- 2025MY-2026MY LD, HD, and CC trucks

❑ **Detail:**

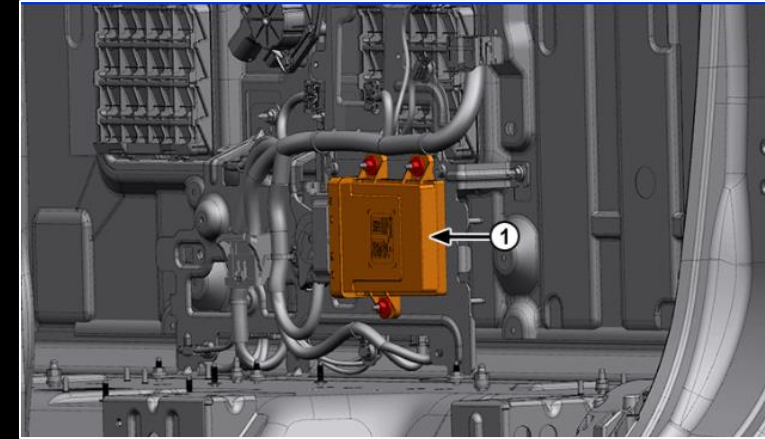

- Trailer circuits have been updated to accommodate advanced diagnostics
- Current builds accommodate 3.5A per circuit

❑ **Solution:**

- Revised hardware and software to accommodate 14A per circuit
- Instructions for will be posted on the Ram Body Builder's Portal

❑ **Timing:**

- Targeted production implementation: December 2025
- Targeted service fix: Q1 2026
